

# BLUEBERRY PATCH

## INFANTS

Loving Earth has a wonderful infant program known as the "Blueberry Patch." Our caring staff ensures your baby is cared for and nurtured while you are at work. We provide our parents a daily sheet letting them know how and what their baby did during the day and a monthly newsletter about the themes we will be talking about during the month.

We work with our infants on developing skills such as rolling, sitting up, crawling, walking, talking, holding their own bottle and eating from a spoon. We also practice circle time, talking, signing and reading to help them develop language and social skills as well. As part of their routine we go on a daily nature walk in our buggy car," if weather permitted."

Our staff assesses your child's development so parents can be assured their child is on task for their age level. We also work with your child in learning ASL (Sign Language), so that even at an early age your little one will learn to communicate their wants and needs.

Each baby gets personal attention to encourage learning, growth and development with the confidence of being loved and cared for.
