

## STRAWBERRY PATCH (PREK-3)

Loving Earth has a rich learning environment for your growing three-year old, known as the "Strawberry Patch". Our Early Childhood professional and caring staff ensure your child is continuing to learn and develop.

At this age children are very active, able to communicate and express themselves more clearly, now their world will be dominated by fantasy and vivid imagination. Our classroom continues to promote their development and their social skills, help them to take turns in games and understanding the concept of "mine" and "his/ hers" through a setting full of materials and age appropriate activities, encouraging them to discover and find solutions, learning "hands on" sorting, matching, patterns, learning shapes colors and numbers understanding pre-math and pre-reading concepts, telling stories, enriching their vocabulary, learning letters and sounds in a friendly and relaxed environment.

We have carefully designed our lesson's plans with different themes each week which also include character development and environmental education activities for each month. We send monthly newsletters home letting mommy and daddy know what theme and skills their child will be working on, so they can also reinforce them at home.

We continue to work with your child in learning ASL (Sign Language), expanding their vocabulary further so they can communicate effectively along with their speech. We continue to evaluate your child's growth and development helping them keep on task.

We continue building on the foundation they developed early on to keep their minds learning and exploring everyday.
